# 1. REVISION HISTORY

| Revision # | Change Description | Changed by | Change Date |
|---|---|---|---|
| 0 | Initial Release | Manmeet Chadha | 2024/04/01 |
| 1 | Final Release | Manmeet Chadha | 2024/04/08 |

# 2. APPROVALS

| Signature Meaning | Name | Title | Date | Signature |
|---|---|---|---|---|
| Author | Manmeet Chadha | SW Test Engineer | | |
| Approved By | Søren Therkelsen | COO | | |

# 3. PURPOSE

This document summarises the results of all testing of the SW Release 7

# 4. SCOPE

This report covers all the software associated with the Qvin Sample Management SW Release R7. The following software is included in this plan:
- Qvin Mobile App
- Qvin Backend changes

# 5. REFERENCES

- SOP-Q009  Design Controls
- SOP-Q038  Software Development
- DOC-17 Software Requirements, Sample Management Software

Qurasense Proprietary Information. Not to be reproduced or disclosed to others without prior written approval.
This document is *UNCONTROLLED* - user must verify current revision in Qvin's Matrix Requirements software before distribution.
This document was generated: 2024/04/14 09:11:21 (project's default time zone and formatting).

# 6. CONCLUSIONS

The table below summarizes the results of verification of all software requirements.  Each software test case (TC-nnn) is traced up to software requirements (SR-nnn) and down to test execution records (XTC-nnn).

All software requirements are linked to one or more test cases and all of those test cases have been executed successfully with the exceptions noted in the 'Unresolved Anomalies' section of the DOC-335 Software Release Package R7

Qurasense Proprietary Information. Not to be reproduced or disclosed to others without prior written approval.
This document is *UNCONTROLLED* - user must verify current revision in Qvin's Matrix Requirements software before distribution.
This document was generated: 2024/04/14 09:11:21 (project's default time zone and formatting).

## 7. SOFTWARE VERIFICATION SUMMARY

| SR | Test | XTC | Execution Date | Execution Result |
|---|---|---|---|---|
| SR-42 Sample shipment | TC-321 To verify if the user is directed to ship the samples on clicking the 'NEXT' button on the Ship my Samples screen | | | |
| SR-42 Sample shipment | TC-322 To verify if the time remaining for shipment is appearing correctly on the countdown timer on the Ship Samples screen, when the user has collected samples from both pads and is ready for shipping. | | | |
| SR-42 Sample shipment | TC-325 Verify the timer on the 'Ship your samples screen', when user wants to ship the samples after the expiry of 72 hours | | | |
| SR-42 Sample shipment | TC-326 Verify the "I've shipped the samples button on Mail Samples Screen | | | |
| SR-42 Sample shipment | TC-327 Verify if Samples Mailed screen appears by clicking on DONE button on Confirmation Reminder | | | |

Qurasense Proprietary Information. Not to be reproduced or disclosed to others without prior written approval.
This document is _UNCONTROLLED_ - user must verify current revision in Qvin's Matrix Requirements software before distribution.
